OUR REGIONAL FOOTPRINT

ITS Science & Medical Group operates across seven Southeast Asian markets through a unified platform that connects global technologies with deep local expertise. Each country team brings strong local capabilities in sales, application support, service engineering, and operations, with established customer relationships and in-depth knowledge of local market conditions, within a single coordinated regional framework.

ITS INDONESIA

As part of ITS Science & Medical Group, PT. ITS Science Indonesia was established in 1997 to make science and technology more accessible to the Indonesian scientific community.

We provide a comprehensive portfolio of analytical instruments, laboratory equipment, consumables, reagents, chemicals, and related solutions, supported by scientific expertise and technical capabilities.

With offices in Jakarta and Surabaya, our team provides local support throughout the customer journey — from product selection and application support to after-sales service, product demonstration, and training.

By combining global technology with local expertise, PT. ITS Science Indonesia helps customers access the right solutions, technical knowledge, and support to advance their work.

INDUSTRIES WE SERVE

We work with organisations where precision, reliability, and performance are non-negotiable, across scientific research, clinical care, and industrial operations. Our role is to reduce complexity, strengthen operational confidence, and enable sustainable progress in every environment we serve.

We also work with:

Public Sector & Institutional Buyers

Tender-aligned solutions, full documentation, and proven delivery in regulated, large-scale procurement environments.

Engineering, Procurement & Construction (EPC)

Seamless integration within complex project environments, from technical specification through to commissioning.

Consultants & Specifiers

Prompt technical input and specification support at the planning stage, ensuring suitability and compliance from the outset.

Global Technology Partners

Regional market development, brand stewardship, and structured commercial execution across Southeast Asia.

SCIENTIFIC RESEARCH & ACADEMIA

Advancing Discovery. Enabling Precision.

Universities, national research institutes, and R&D centres.

Instrumentation and workflow solutions tailored to each research application.

Expert support across installation, validation and method development.

HEALTHCARE & CLINICAL DIAGNOSTICS

**Precision Reliability.
Patient-Critical Performance.**

Hospitals, specialist clinics, diagnostic laboratories, and senior care and rehabilitation facilities.

Compliance-ready solutions aligned with clinical and accreditation standards.

Preventive maintenance and lifecycle management for critical systems.

INDUSTRIAL & MANUFACTURING

**Quality. Consistency.
Operational Efficiency.**

Pharmaceutical, food & beverage, chemical and advanced manufacturing.

Scalable solutions for high-throughput QA/QC environments.

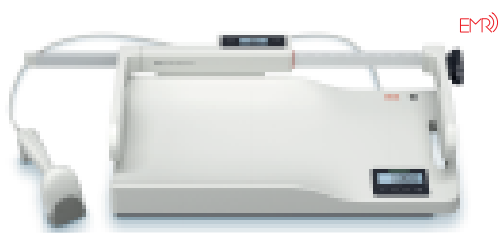

Calibration, preventive maintenance programmes and uptime-focused service support.

seca 727
EMR-validated baby scale with very precise graduation

- Utmost accuracy: suitable for premature infants
- Weighing tray made of heat-retaining plastic
- Capacity 20 kg / 44 lbs
- Graduation 1 g < 6 kg > 2 g
- Included rechargeable batteries allow mobile use without searching for a power outlet
- EMR-validated: transmit measured data directly to any Electronic Medical Record (EMR) system

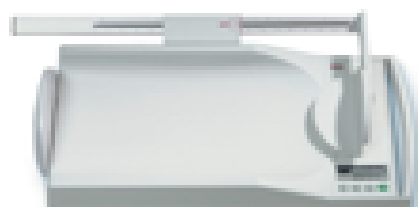

seca 333 i
EMR-validated baby scale with Wi-Fi function

- Optional with digital measuring rod seca 234
- Capacity 20 kg / 44 lbs
- Graduation 5 g / 0.2 oz
- With Breast-Milk-Intake-Function (BMIF)
- USB port for barcode scanner for user and patient identification
- EMR-validated via Wi-Fi: transmit measured data directly to any Electronic Medical Record (EMR) system

seca 374
Baby scale with extra large weighing tray

- Weighing tray with high side walls for increased Safety
- Capacity 20 kg / 44 lbs
- Graduation 5 g < 10 kg > 10 g
- Breast-Milk-Intake-Function (BMIF)
- Large tray is suitable for weighing toddlers while Sitting

seca 334
Mobile digital baby scale

- With Breast-Milk-Intake-Function (BMIF)
- Handy and light for mobile medical use
- Capacity 20 kg / 44 lbs
- Graduation 5 g < 10 kg > 10 g
- Large, easy to read LCD display
- Extendable with measuring rod seca 232

seca 354
2-in-1 mobile baby scale and flat scale for toddlers

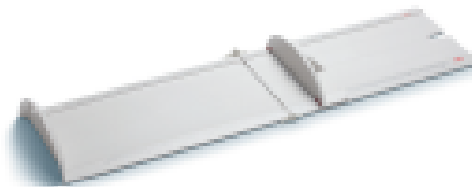

- Weigh babies lying down and toddlers standing Up
- Capacity 20 kg / 44 lbs
- Graduation 5 g < 10 kg > 10 g
- Easily detach the weighing tray from the base to use as a flat scale
- Breast-Milk-Intake-Function (BMIF)

seca 416

Infantometer for measuring babies and toddlers

- Robust, extra large construction for precise Measuring
- Measuring range 33 – 100 cm
- Graduation 1 mm
- Ensures correct lying position due to trough-shaped measuring surface

seca 417

Light, space-saving and stable measuring board also ideal for mobile use

- Simple operation for quick mobile use
- Folds up for space-saving storage
- Measuring range 10 – 100 cm
- Graduation 1 mm

seca 210

Mobile measuring mat for babies and toddlers

- Light-weight and easy to clean with most commercially available disinfectants
- Measuring range 10 – 99 cm
- Graduation 5 mm
- Fixed head piece and the sliding foot position
- Measuring mat rolls up for easy transport and space-saving storage

seca 206

Mechanical measuring tape

- Space-saving, roll-up mechanism, with wall attachment
- Measuring range: 0 - 220cm (Division: 1mm)
- Durable tape made of metal

seca 203

Ergonomic circumference measuring tape with extra Waist-To-Hip-Ratio calculator (WHR)

- Mechanical
- with integrated WHR calculator
- Measuring range: 0 - 205cm (Division: 1mm)

seca 212

Measuring tape for head circumference of babies and toddlers

- Hygienic, disposable measuring tape of non-stretch Teflon material
- Double function: head circumference with the front side of the tape and facial symmetry with the rear side
- Easy-to-read, color-coded precise results
- Practical dispenser (content: 15 tapes)

seca 201

Ergonomic circumference measuring tape

- Mechanical
- Measuring range: 0 - 205cm (Division: 1mm)
- Compact and easy to store

Column Scale

seca 787

EMR-validated column scale with eye-level display

- Digital measuring rod with an extra long measuring Range
- Capacity 250kg (100g)
- Measuring Range 10-230cm (1mm)
- Auto-BMI
- Damping system and Auto-HOLD guarantee quick and precise weighing
- EMR-Integration Ready

seca 777

Digital column scale with eye-level display

- Medical-grade, robust scale designed for years of use with high patient volume
- Auto-BMI
- Capacity 250kg (100g)
- Measuring Range 10-230cm (1mm)
- Large rubber coated wheels for excellent movability

seca 703 (w/ measuring rod 220)
EMR-validated column scale with 300 kg capacity

- Extremely robust, highly precise seca weighing technology with 300 kg capacity
- Capacity 300kg (50g < 150kg > 100g)
- Measuring Range 60-200cm (1mm)
- BMI
- EMR-Integration Ready

Flat Scale

seca 874

Flat scale with foot switches and double display

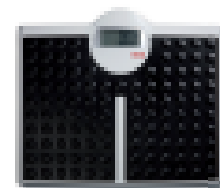

- Double display lets the doctor and patient read Simultaneously
- Capacity 200 kg (50g<150kg>100g)
- Batteries

seca 876

Digital flat scale with foot pedal

- Precise weighing technology for medical use
- May be used standing up thanks to the foot pedals and tap-on function
- Capacity 250kg (100g<150kg>200g)
- Batteries

seca 813

High capacity digital flat scale for individual patient use

- Solid steel frame, up to 200 kg capacity
- Non-slip rubber base for safe standing during measuring
- Step-off function for weighing

seca 274

Freestanding stadiometer with digital display

- Digital height measurement: comfortable and precise
- Precise head alignment by the seca Frankfurt line positioner
- Sliding headpiece with backlit digital display
- Transmit measured data directly to a seca mBCA 514
- Measuring range: 30 - 220cm (Division: 1mm)

seca 217

Stable stadiometer for mobile height measurement

- Portable
- Measuring range : 20-205cm (Division 1mm) optional adapter 437
- Mechanical with Spirit Level

seca 213

Portable stadiometer

- Measuring range : 20-205cm (Division 1mm)
- Mechanical with Spirit Level
- The measuring rod can be dismantled and stored securely in the base for easy transport

seca 286

EMR-validated ultrasonic measuring station with voice guidance

- Voice-guided self-measurement assists personnel
- Outstanding precision and high-speed measuring thanks to perfected ultrasound technology
- Capacity : 300kg (Division 50g)
- Measuring Range 60-210cm (Division 1mm)
- EMR-validated: transmit measured data directly to any Electronic Medical Record (EMR) system

seca Scale-Up Line

(seca 654+Seca 257+Seca 455) (ONSHMIUTNN)

EMR-Validated Ultrasonic Measuring Station with ID-Display

- Display shows user and patient names or IDs for increased patient safety
- Capacity : 360kg
- Measuring Range: : 60 – 220cm
- Data transmission controlled by touchscreen
- Outstanding precision and high-speed measuring thanks to perfected ultrasound technology
- Safe weighing with a stable handrail
- Large platform made of tested seca Bearclaw Glass® for absolute breakage resistance and perfect hygiene
- EMR-validated: transmit measured data directly to any Electronic

Handrail Scale

seca 676

EMR-validated wheelchair scale with handrail and transport wheels

- EMR-Integration Ready
- Large wheelchair accessible platform
- BMI
- Two ramps included
- Capacity: 360kg (Division: 50g)

Platform Scale

seca 684

EMR-validated multifunctional Scale

- EMR-Integration Ready
- Large, easy to access platform
- incl. 1 ramp
- BMI
- Capacity: 360kg (Division: 50g)

Specialized Scale

seca 856

Digital organ and diaper scale with stainless steel cover

- Complete stainless steel-surface reduces contamination
- Easy to clean and disinfect
- Scale completely sealed from moisture
- Pre-TARE function for permanent use with the container of your choice
- Increase in metal housing protects display from liquid
- Capacity 5kg (Division: 1g < 3kg > 2g)

Chair Scale w/Interface

seca 954

EMR-validated chair scale with precise graduation

- EMR-Integration Ready
- Fold-up arm and footrests for easy access
- Chair scale
- BMI
- Capacity: 300kg (Division 50g<150kg>100g)

Chair Scale

seca 952

Chair scale for weighing while seated

- The simple solution for patients with decreased mobility
- Chair scale
- Capacity: 200kg (Division 100g)

ITS INDONESIA

Our professional service engineering team supports you with the expertise that is needed for your instruments' consistent optimization and long-term maintenance. In short, our Professional Services is our key value proposition to you.

WHAT WE OFFER PARTNERS

Financial Strength & Governance

A compliant, well-governed operating platform that meets global partner expectations.

Established Customer Access

Deep relationships with hospitals, laboratories, and institutional buyers built over decades.

Accelerated Market Entry

Enter and scale across multiple countries through an established platform, with no need to build from scratch.

Commercial Execution

Dedicated sales teams, key account management, and consistent pipeline development.

Reliable After-Sales Support

Strong service capabilities sustaining long-term customer satisfaction and retention.

Integrated Project Capabilities

Early project engagement across laboratory and healthcare infrastructure opportunities.

GET IN TOUCH

Whether you have a product enquiry, need service support, or are looking to explore a partnership, our team is here to help.
